To ensure quality in our educational services through optimizing intellectual and infrastructural resources, capacity building, practicing ethical and transparent management principles and adhering to the core value system is the mission of Lokseva Education Society.

Principal's Message

we offer an academic program that facilitates an overall development of the human personality in all its dimensions-intellectual, physical, social, moral and spiritual. The College will remain indebted to the unstinted cooperation between the parent, who is the first teacher; and the teacher, who is the second parent. Such a bond is essential if the school aims to go beyond simply churning out success stories in examinations. It will be the constant effort of the college to endow its students with sensitivity and empathy that enable them to reach out to the world in effectual service and untold creativity
